

The Delta Kappa Gamma Society International  
Chi State

DATE: January 2012  
TO: Chapter Presidents and Area Legislative Liaisons  
FROM: Carolyn Clark, Chi State Professional Affairs Committee  
SUBJECT: Adopt-a-Legislator Program

The goal of the Adopt-a-Legislator Program is to establish rapport and direct communication with an Assembly or Senate member. Legislators making decisions affecting education and women educators can receive valuable input from Chi State members through the exchange of professional information and ideas. This participation increases members' awareness of those important issues which affect their social, economic and political life.

The procedure for "adoption":

- Each Chapter selects Assembly and/or Senate members from its area for "adoption"
- The Chapter Legislative Chairman, along with other interested members, maintains communication with the legislator(s)
- Chapter members contact legislators through letters, faxes, emails, telephone calls, office visits, attendance at legislator community events, and invitations to attend or speak at Chapter meetings

Please return this portion to your Area Legislative Chairman after your Chapter has adopted a legislator.
